

NIZAM UDDIN

Software Engineer

Kolar, Karnataka | +91-7019706544 | nizampasha218@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Software Engineer with hands-on experience developing full-stack web applications using Java, Spring Boot, React.js, MySQL, and REST APIs. Skilled in building scalable applications, cloud deployment, and solving real-world software problems through clean and maintainable code.

INTERNSHIP EXPERIENCE

Java & Python Full Stack Developer Intern

Vstan4U Technologies - Bengaluru, Karnataka

- Developed full-stack features using Java (Spring Boot) backend and React.js frontend; built and consumed RESTful APIs for user authentication, data submission, and reporting, tested via Postman.
- Designed and optimized MySQL schemas and worked with MongoDB for document-based storage; wrote efficient queries for application data requirements.
- Contributed Python scripts for backend automation and data processing, reducing manual effort in internal workflows.
- Collaborated in an agile team with code reviews and version control using Git and GitHub.

Technical Skills

Languages:

Java, JavaScript, Python, SQL

Backend:

Spring Boot, Node.js, Express.js

Tools:

GitHub, Maven, Postman, Figma

Frontend:

HTML5, CSS3, React.js, Bootstrap

Databases:

MySQL, MongoDB

Cloud:

AWS, Vercel, Netlify, Render, Railway

PROJECTS

1. House Rental Platform

Tech Stack: Java, SpringBoot, MySQL, HTML, CSS, JavaScript

- Built a full-stack rental platform with property listing, search, and complaint management using Spring Boot and MySQL.
- Designed RESTful APIs and implemented CRUD operations for property and tenant management following MVC architecture.
- Integrated user authentication and role-based access control to secure landlord and tenant functionalities.
- Deployed the application on Render with a MySQL cloud database, ensuring production-ready availability.

2. Portfolio Website

Tech Stack: React.js, Bootstrap

- Developed a responsive portfolio using reusable React components with lazy loading for improved performance.
- Ensured cross-browser and mobile compatibility with a modern, recruiter-friendly UI.
- Integrated smooth navigation, project showcase section, and contact form using React Router.
- Deployed on Netlify with continuous deployment linked to the GitHub repository.

3. Informer Chatbot

Tech Stack: HTML, CSS, JavaScript, External APIs, Node.js, Express.js

- Integrated 3+ external APIs
- Reduced API response handling delays with optimized loading states
- Developed 15+ REST API endpoints
- Designed a responsive UI supporting desktop and mobile devices

EDUCATION

Bachelor of Engineering — Computer Science

2022 – 2026

Dr. T. Thimmaiah Institute of Technology (VTU) | CGPA: 8.5 / 10

Coursework : Object-Oriented Programming (OOP), DBMS, Data Structures & Algorithms

ACHIEVEMENTS

- Solved 100+ Data Structures and Algorithms problems on competitive coding platforms.
- Earned a 5-star Java rating and a 3-star Python rating on HackerRank.
- Built and deployed multiple full-stack projects with cloud hosting on Vercel, Netlify, and Render.
- Active GitHub contributor with well-documented project repositories.
